Subject: RE: Incorporation of IO Comments on SNUR FRN
Attachments: Asbestos SNUR Action Information 3.15.19.docx; Asbestos SNUR Action Memo 3.15.19.docx; Asbestos SNUR Communication Plan 3.15.19.docx; Asbestos SNUR Response to Comments 3.15.19.docx

Importance: High

Please find the rest of the rule package documents that need review, incorporating comment from Mark and Susanna. I'd like to get the docs back to the IO today and, after their review for clearance, potentially to the OCSPP IO by COB (or Lea will need to send Monday). Steve is trying to get OGC management review/signoff Tuesday.

Steve,

As discussed, no need to look at anything but the RTC (and the comments were minor, as you will see).

Thanks.

Subject: Incorporation of IO Comments on SNUR FRN
Importance: High

In the interest of time I'm sending forward the FRN with my responses/edits to the IO comments prior to routing to the OCSPP IO. Steve, I flagged a couple things for you since the IO's comments led to a few edits that need your review.

I will now begin working on the other docs, the comments of which are minimal so should be relatively quick. Thanks for taking a look at this. Unfortunately, sharepoint is not working for me so sending this as an attachment. The IO comments were not extensive on any of the docs, the FRN having the most comments.

-Robert
